The new DeatschWerks X3 Ford F-150 Module is now available for the 1999-2004 model years, which includes accommodation for 1, 2 or 3 fuel pumps, and retention of ALL functionality of the OE module. The DW X-Series module consists of a billet top-hat, billet pump holder, and bracket for the OE fuel level sensor. These three components work together to deliver the flow you need and the OE functionality you want.
